ABSTRACT PROGRAM OF THE FIFTEENTH ANNUAL SOCIETY FOR LIGHT TREATMENT AND BIOLOGICAL RHYTHMS VIRTUAL MEETING 2003

	Abstract No.	Page
Letter from the President A.J. Levitt		1133
In Memoriam: John Christian Gillin S. Ancoli-Israel		1135
Highlights of the Abstract Program of the Fifteenth Annual Society for Light Treatment and Biological Rhythms R.D. Levitan and A.J. Levitt		1139

Section 1: Epidemiology and Phenomenology

Hard Times and Good Friends: Negative Life Events and Social Support in Patients with Seasonal and Nonseasonal Depression E.E. Michalak, E.M. Tam, C.V. Manjunath, L.N. Yatham, A.J. Levitt, R.D. Levitan, and R.W. Lam	1.1	1149
Seasonal Affective Disorder: Psychopathology in Comparison with Suicide Attempters with Major Depression B.P.G. Pendse, G. Engström, and L. Traskman-Bendz	1.2	1151
Explanatory Style, Coping and Winter Stress in Seasonal Affective Disorder, Subsyndromal Seasonal Affective Disorder and Nonseasonal Depression R. Dew and J. Tan	1.3	1152

1127

Seasonality, Depression, and Gender as Predictors of Cognitive Vulnerability and Coping J. Tan, R. Dew, and A. Wrzecionek	1.4	1153
Changes in Energy/Motivation Around the Spring Equinox M.A. Young and A. Reardon	1.5	1155
Diagnostic Reliability and Symptom Pattern of DSM-IV Atypical Features in Seasonal and Nonseasonal Depression M. Terman, M.M. Macchi, N. Goel, J.B. Rifkin, J.S. Terman, and J.B.W. Williams	1.6	1157

Section 2: Circadian Rhythms and Sleep

Effect of Long-Term Light Exposure on Retinal and Circadian Light Sensitivity of Outdoor and Indoor Workers M. Rufiange, P. Lachapelle, and M. Dumont	2.1	1159
Outdoor Light Exposure and Sleep Phase A. Wirz-Justice, P. Graw, and T. Roenneberg	2.2	1161
Circadian Adaptation in Antarctic Shift Workers: Relationship to Diurnal Preference, Season, and Subjective Sleep L. Ng, L. Morgan, and J. Arendt	2.3	1162
Relative and not Absolute Illuminance Affects Distribution of Sleep in the Rat J.R. Prichard, J.L. Fahy, M. Behan, W.H. Obermeyer, and R.M. Benca	2.4	1164
Distribution of REM Sleep in the Rat Is Influenced by Neonatal Lighting Environment J.R. Prichard, J.L. Fahy, M. Behan, W.H. Obermeyer, and R.M. Benca	2.5	1166
Effect of Circadian Rhythm on Testosterone and Cortisol Response to a Single Bout of Heavy Resistance Exercise in Young Men S.P. Bird and K.M. Tarpinning	2.6	1169
Modafinil Increases Human Rectal Temperature Rhythm Amplitude Under Conditions of 60 Percent Sleep Restriction T.H. Monk, D.J. Buysse, D.K. Welsh, and R.Y. Moore	2.7	1171

Contents for Fifteenth Annual Abstracts **1129**

Neuroendocrine Rhythms in Postpartum Depression: Preliminary Results B.L. Parry, C.J. Meliska, N. Basavaraj, D. Sorenson, G. Zirpoli, E. Maurer, L.F. Martinez, A. Lopez, A. Gamst, T. Wolfson, J.A. Elliott, R. Hauger, J.C. Gillin, and D.F. Kripke	2.8	1173
Increased Fatigue and Decreased Light Exposure are Associated in Breast Cancer Patients L.Q. Liu, S. Johnson, V. Jones, M. Cohen-Zion, S. Nolan, M. Marler, G. Sadler, and S. Ancoli-Israel	2.9	1175
Dementia Severity and Rest/Activity Circadian Rhythms S. Ancoli-Israel, P. Gehrman, and M. Marler	2.10	1176
Light Treatment of Phase Disturbances in Alzheimer's Disease D.G. Harper, M. Nitta, K. Girasa, and L. Volice	2.11	1178

Section 3: Melatonin

Shorter Wavelength Light is More Effective for Changing Melatonin Phase L. Lack and H. Wright	3.1	1179
Light-Induced Melatonin Suppression in Healthy Humans with Narrow-Band Light-Emitting Diodes G. Glickman, B. Byrne, M.D. Rollag, S. Tavener, J.P. Hanifin, and G.C. Brainard	3.2	1181
Green Light Suppression of Melatonin T. Riesenberg, D.F. Kripke, J.A. Elliott, and R. Cole	3.3	1183
The Use of Orange Lens Glasses to Block the Suppression of Melatonin by Bright Light A. Sasseville, N. Paquet, J. Sévigny, and M. Hébert	3.4	1184
Mechanisms of Blue Light-Induced Retinal Degeneration and the Potential Relevance for Age-Related Macular Degeneration and Inherited Retinal Diseases C.E. Remé, A. Wenzel, C. Grimm, and H.P. Iseli	3.5	1186
Effects of Melatonin on Autism and Mental Retardation and Sleep-Wake Cycle Disorders: A Case Report T. Chevrette, M. Rolland, A. Masse, S. Binet, J. Meloche, D. Daignault, L. Bertrand, and R. Godbout	3.6	1187

Entrainment of the Human Circadian Pacemaker by Melatonin is Independent of the Circadian Phase of Treatment Initiation
J. Emens, A. Lewy, R. Bernert, and B. Lefler 3.7 1189

The Effect of Exogenous Melatonin in Major Depression
M.A. Serfaty, D. Osborne, M.J. Buszewicz, and P.W. Raven 3.8 1191

Section 4: Biology of Seasonal Affective Disorder

Effect of Iris Pigmentation and Latitude on Chronotype and Sleep Timing
T.M. White and M. Terman 4.1 1193

Electroretinography in Patients with Seasonal Affective Disorder
M. Hébert, C. Beattie, E.M. Tam, L.N. Yatham, and R.W. Lam 4.2 1195

Seasonal Changes in Spatial Contrast Vision in Depression
M.F. Wesner and B. Gallant 4.3 1197

Association of Seasonal Affective Disorder with a CYS23-SER23 Substitution in the 5-HT_{2c} Receptor Gene
M. Willeit, N. Praschak-Rieder, P. Zill, D. Winkler, N. Thierry, A. Konstantinidis, B. Bondy, M. Ackenheil, and S. Kasper 4.4 1199

The Dopamine-D4 Receptor Gene Is Associated with Binge Eating and Obesity in Women with Seasonal Affective Disorder
R.D. Levitan, E. Mackenzie, A.S. Kaplan, M. Masellis, R.W. Lam, V.S. Basile, C. Davis, S. Tharmalingam, and J.L. Kennedy 4.5 1201

Effect of Diet and Season on Leptin and TNF in Winter Depression
A. Wirz-Justice, K.V. Danilenko, T. Pollmächer, P. Huber, L. Pridzun, S.E.H. Alexson, and F.M. Wurst 4.6 1202

Timed Carbohydrate-Rich or Protein-Rich Meals in Seasonal Affective Disorder
K.V. Danilenko, K. Kräuchi, and A. Wirz-Justice 4.7 1203

Stress-Related Neuropeptides in Seasonal Affective Disorder, Suicide Attempters with Non-seasonal Major Depression, and Healthy Control Subjects
B.P.G. Pendse, K. Andersson, R. Ekman, and A. Westrin 4.8 1205

Section 5: Treatment Studies

A Placebo-Controlled Trial of Bright Light and Negative Ion Treatment for Chronic Depression: Preliminary Results N. Goel, J.S. Terman, M.M. Macchi, J.W. Stewart, and M. Terman	5.1	1207
Bright Light Therapy for Depression During Pregnancy: Preliminary Findings from a Randomized Clinical Trial C.N. Epperson, M. Terman, J.S. Terman, B.H. Hanusa, D.A. Oren, K.S. Peindl, and K.L. Wisner	5.2	1209
No Benefit to Using Polarized Rather than Non-Polarized Light for the Treatment of Seasonal Affective Disorder K.V. Danilenko and S.B. Hayes	5.3	1211
Length of Light Treatment Trial: Does it Influence Outcome? A.J. Levitt and R. Levitan	5.4	1213
Plasma DLMO ₁₀ Zeitgeber Time 14: The Therapeutic Window for Phase-Delayed Winter Depressives Treated with Melatonin A.J. Lewy, B.J. Lefler, B.P. Hasler, V.K. Bauer, R.A. Bernert, and J.S. Emens	5.5	1215
Modafinil Improves Winter Depression in a Pilot Study L. Lundt	5.6	1217
Cognitive-Behavioral and Light Treatments for Seasonal Affective Disorder: Interim Analyses from a Controlled Randomized Clinical Trial K.J. Rohan, K. Tierney Lindsey, K.A. Roecklein, R.D. Lippy, L.G. Johnson, A.T. Nguyen, A.I. Massac, and T.J. Lacy	5.7	1219

Delayed Sleep Phase Syndrome: Effects of Isolated
Or Combined Use of Melatonin and Light Therapy
A.J. Remesar-Lopez, A.A. Benedito-Silva, M.L.N. Pires,
M. Bignotto, and S. Tufik
